

Mission

MISSION

TRAIN AND EMPOWER FOOTBALL PLAYERS TO ACCOMPLISH THEIR DREAMS BY PERFORMING AT HIGH LEVELS REQUIRED FOR PROFESSIONAL OPPORTUNITIES

Player development | Showcases | Talent placement

X-Uvia Soccer Academy was established in 2013 was extracted from the word Exuviate which is to experience change and to renew oneself; Shedding the old to become new.

The foundation and structure of our academy is based around the meaning and represents our brand of soccer. Our focus is to extract the old habits and replenish its old ways with a new brand of attractive Soccer, winning, is how we play and not how much we score. All our members are encouraged to play above their maximum capabilities and a sense of renewed self confidence to achieve their realistic goals in academics and athletics. Not all players aspire to become professionals and so it is important to provide a platform for all our members that best matches their ambitions.

Our members train three days a week and take part in competitive pre-arranged matches at home and abroad. Coaches prepare the day while players create the environment and so we welcome Ottawa's best kept secrets to join us on our quest to produce the next star player right here in Ottawa.

University Private Showcase Program

University showcases are an excellent way for scouts to meet players and a stage for players to be seen for potential Scholarship opportunities. These events sometimes attract perhaps too much attention, attending a soccer tryout or showcase carries enough pressure on its own. More pressure is

added when a student athlete is to compete with players he or she has never played with or played against. With so many players to assess, many coaches have little time to better assess the players quality.

With formed alliances with institutions in the US and in Canada, we are able to organize private showcase events in the western New York region and upstate New York where there are more than 20 division 1 and division 2 schools that are within a three hour drive that will encourage high ranking coaches to attend these matches. We will focus on the American regions closest to Ottawa/Toronto in order to give the universities several opportunities to view our players, We offer the program to both boys and girls at the U14 to U18 level, which will increase the chances of our players receiving NCAA Scholarships.

Professional ID Camps and Tours

With your help, We can build a safe pathway to guide young athletes to the semi-professional or even professional level of play. We are able to provide better exposure for young players to further develop. These opportunities in Europe and the US could play a part in providing what motivates young athletes to become better professionals.

Coach's Development program

Soccer is often categorized as a universal language. X-uvia commits to actively recruit the best youth coaches from around the world. This ensures that our members are constantly learning various approaches towards becoming the complete soccer player. Our Coaches will have the opportunity to work alongside Scandinavian coaches to enhance their coaching skills while exchanging ideas with professional clubs in selected regions. Coaching clinics offered will delivered by professional coaches in Scandinavia and in Ottawa.

Individual Placement Opportunity

When a player is Identified as an exceptional talent, We offer to showcase the player to professional clubs within the region we see fit. Our goal is to promote and offer opportunities to as many young players in the region so that they can have the opportunity to test their level of development against students across the world.

Thank you for considering our proposal, for further questions please contact us through our contact portal.

Welcome to X-uvia Soccer Academy!
